

Help Us Build a Safer Route to Our Two Schools

Donate to Joaquin Miller/Monterera School Pathway Project

Parents, teachers and neighbors have long desired to build a safer pathway from Joaquin Miller and Monterera Schools to Montclair Village. The current narrow, dirt pathway gets muddy and full of ruts during the rainy season and there are no sidewalks to keep pedestrians safe from oncoming traffic.

The project calls for redoing the existing pathway on OUSD property from Joaquin Miller School to the steps at the beginning of Ascot at Mountain, constructing a safe pedestrian landing at the crosswalk at Ascot and Mountain, and installing a 4- to 5-foot wide asphalt pathway from there to Scout Road along Mountain Blvd. The close to \$1 million project will be funded by private donations, Council & OUSD contributions, and state grants.

You can help. Make a \$100 commitment today: You can write a check for \$100; ask your neighbor to match your \$50 or three of your friends to match your \$25. We have already raised more than \$150,000 in real dollars and commitments. Our goal is to raise an additional \$80,000 from the community through individual donations and grants.

Please help us reach our goal by making a tax-deductable donation to:
